## Bailey Wheel

The Gladstone Bailey wheel offers the studio and professional potter a wheel of unparalleled performance and versatility in a compact and user friendly design .

The Bailey wheel has been designed to complement a European style of throwing with the wheel head set at a greater height than most wheels of this style allowing a more comfortable throwing position.

The wheel is powered by a super smooth 1/2hp drive that is controlled by a computer enhanced VF drive that due to its unique design can generate up to the peak equivalent of 1Hp under heavy loads this enables the wheel to give constant smooth power through out the speed range and is extremely quiet in operation . The Bailey wheels has a large one piece splash tray and can also be supplied with numerous options that can be added to the wheel.

Motor : AC variable speed 0.37 Kw ( 0.5 Hp) industrial rated  
0 – 280 RPM 230 volt power supply

Centering weight 25 kg

Wheel head 305 mm Aluminium

Dimensions 630 mm long x 470 mm wide x 680 mm high 40 kg weight

Precision laser fabricates chassis with durable powder coated finish, sealed for life separate

Bearing housing
